

The Little **Benford ME130**

It makes the competition look small

The Benford ME 130 is the small hydraulically operated excavator that's big on benefits, for within its compact dimensions are all the engineering features to make your work more productive and profitable.

Big on performance

ME130 has a bucket tear out force of 1.75 tonne, digs down to 1.9m and has a load-over height of 1.73m.

Big on mobility

A unique system* of pin connected tow bar, wheels and stabiliser feet allows ME130 to be changed in moments from excavator to road going trailer suitable for towing behind a pick-up, van or car.
